Everybody's Talking!

Alien pods: A farmer in Japan had an overabundance of Chinese cabbages last year, so he decided to leave some in the field to become natural fertilizer. The farmer didn't realize that by spring, his field would resemble a scene from the 1979 sci-fi movie, *Alien*. The cabbages ended up looking like rows and rows of alien eggs ready to hatch. This occurred because the cabbages have an outer layer of water that froze. The resulting gray-brown, oblong "pods" might scare someone who has seen the movie, but they are really just heads of rotten cabbage!

Cuddly, but not cute: The sphynx is a breed of cats with hairless bodies and lots of wrinkles. One of these felines, Xherdan of Rüti, Switzerland, is becoming known due to social media. His owner, Sandra Filippi, realizes that not all people would find Xherdan to be a cute cat; they may even call him ugly! But she doesn't care because she loves her unique pet. Xherdan has long ears and skin with so many folds that it looks like a brain. But his skin is silky to the touch and he's as cuddly as a longhaired kitten. He's also smart and extroverted, which are personality traits of this breed.

Big complainer: Bernie Carroll of Liverpool, England, is in the habit of sending angry letters to his local newspaper, and he's been doing it daily since 1978. The *Liverpool Echo* is the recipient of all the mail. Carroll started doing this many years ago to rant about the politics of the time, and today he gives his opinions on anything and everything. For example, he writes about the thoughtless behavior of dog owners who don't pick up after their pets and about people who make too much noise setting off fireworks. For Carroll, writing letters is cathartic because it lets him express his irritation in a creative way.

Garden mania: A unique gardening competition in Japan is known as the Kei Truck Garden Contest. In it, competitors use the bed of a Kei Truck (or *kei-tora*) as the canvas for their creations. These small trucks are well-known in Asia for use in construction and agriculture. Once a year, competitors meet at the designated location with an empty truck. Then, they begin their creative projects and soon the truck beds are filled with soil, greenery, flowers, pebble paths, waterfalls, benches, and even aquariums. The mini-garden creations are ranked by a panel of judges who name a winner.
